# 1 Introduction

The PlexServer SDK 2.0 Setup wizard automatically installs the PlexService SDK Documentations, Tools, and Sample Source Codes on your computer. The Setup wizard creates a PlexServiceSDK folder in the K-Plex installation folder (K-Plex folder under Program Files folder as default), decompresses files from the PlexService SDK release media and copies them to this folder on your hard disk, registers the dlls, and adds PlexService SDK folder and its program icons in the Windows Start Menu\Programs folder. The Setup wizard creates the program-item icons for:
